## PERSONALITY

MAKE YOUR FLOOR  
**AS UNIQUE** AS YOU ARE

### FEATURES

#### **ONE DAY** INSTALLATION

Our most popular garage floor coating allows you to return your items to the garage the next day.

#### **CHEMICAL** RESISTANT

Resistant to salt, oil, gas, and grease. Chemicals can be cleaned up without damaging the epoxy coating.

#### **ULTIMATE** UV STABILITY

Flakes Floor Coating will never fade, the topcoat will never yellow. Your floor will look brand new for years.

#### **EASY** CLEANUP

One of the primary reasons for having a floor coating for the ease of maintenance. When spills happen all it takes is a quick wipe up and you are done. No stains!

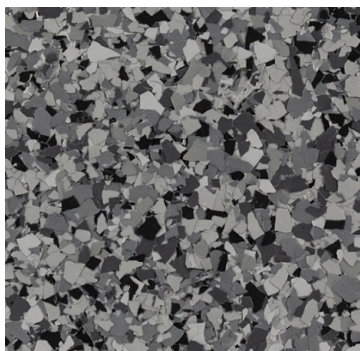

Flakes System provides a vibrant, attractive, hygienic and extremely durable concrete surface. The coating may contain a variety of flake types scattered over a colored base coat and finished with a resistant polyaspartic sealer. Ideal for garages, porch or public areas.

### DIAMOND GRINDING the best floor preparation

This preparation opens the top surface of the concrete floor, opens the cracks with a V-CUT BLADE removing any substances or sealants, and makes the concrete porous again. This process allows the coating to properly adhere to the concrete.

Our industrial vacuum with HEPA filters are attached to our grinders, so it offers clean air without dust and contaminants.
